

Dear Phys 106 Students,

We are planning the Phys 106 course in accord with the decree issued by the University Senate on 22.2.2022 and readily available at the following link:

<http://oidb.metu.edu.tr/tr/duyuru/2021-2022-akademik-yili-bahar-donemi-isleyis-usul-ve-esaslari>.

We would like to bring to your attention that most of the sections of Phys 106 will be conducted in face-to-face manner, while the sections: 1, 12, 15 will be offered online due to several organizational factors and necessary circumstances.

During the add-drop period (14-18 March 2022) all the students with a valid reason will be given the opportunity to change sections. Students in the online sections 1, 12 and 15 can change to a face-to-face section of their choice. Those who want to change their section to an online one must have a valid reason that must be approved by us. To apply for a section change fill out the General Physics - Request for Section Change form at:

<https://forms.gle/zGQZXbPAmCHYcmzf6>

Section changes are subject to availability of capacity in the corresponding sections.

Please bear in mind the following:

- No bonus credit will be given to attendance,
- Laboratory sessions will be conducted face-to-face for everyone,
- Midterm and Final examinations will be face-to-face. No online exam will be offered or made available to an individual student or a group of students. Please do not make such a request.

Further announcements will be made by the course coordinator as necessary.

METU Department of Physics
